Description

First unveiled at the Monaco Yacht Show to a well-heeled chorus of public ooing, the Z44 is not your everyday boat. Designed and built in the Netherlands specifically to cater for a supremely solvent client base.

While most boat builders embrace straight edges and simplified moldings as means of increasing production efficiencies, the Z44 is all graduated curves, sweeps and seamless fluidity.

To say that this beautiful boat is a head turner is an understatement, Viere is powered by twin Volvo Penta 600 hp diesel motors that transfer their power into the water via state of the art IPS drives.

Down below you get a central atrium with galley to starboard and heads to port, plus a raised convertible dinette in the bow space and a full-beam master double width lounge and changing area beneath the cockpit sole. And just as on the main deck, the sweeping proliferation of curves has a lovely way of inviting you from space to space.
