Description

This vessel is located in Sydney NSW The Mustang 3500 is a true sports package.

The 3500 hull is distinctively different to any of the other Mustang designs. Starting with a deep-vee in the bow and huge chines that flatten out towards the stern, the hull sweeps back in a gentle curve. In fact, there are very few straight lines on the boat. It is all about curves.

The whole cockpit from the helm station back is open and designed for entertaining. The helm station is neat in a curved console housing white-faced, Mustang-branded, instruments that are made for Mustang in the US.

The cockpit area can be covered with a bimini top that folds back to the Targa arch when not needed. Another great feature is the zip-out clears between the bimini and the top of the windscreen.

The benchtop is fitted with a 240V two-burner electric stove, a microwave oven and 12V refrigerator. All the cabinets and lockers are manufactured from Nyatoah timber sourced from New Zealand.

Upfront is a large double berth with hanging locker and storage space. Aft, tucked under the helm station is another double berth with stand up headroom in the entrance. The whole aft bunk lifts up on gas struts to reveal a huge storage space for sheets, blankets and towels. The aft cabin also has a hanging locker and a small seat handy when tying up boating shoes.

- Manifolds and riser done January 2020
- Engine serviced January 2020
- Slip & antifoul January 2020

Service history provided upon request.
