Description

Chris-Craft Corsair 30 Heritage – Classic Style, Modern Performance

Ray White Marine is proud to present this exceptional 2019 Chris-Craft Corsair 30 Heritage Edition to the market as exclusive agents.

Combining timeless craftsmanship with modern performance, the Chris-Craft Corsair 30 Heritage is one of the most elegant and desirable premium day boats ever built. Finished in the sought-after Heritage specification, she features extensive teak detailing, rich varnished mahogany finishes, hand-stitched upholstery and polished stainless-steel accents throughout.

Presenting in outstanding condition with approximately 220 engine hours, a comprehensive maintenance history and significant recent upgrades, this Corsair 30 offers a rare opportunity to acquire a late-model example that presents beautifully and is ready for immediate enjoyment.

The Corsair 30 succeeded the highly successful Corsair 28, with the increased length and beam creating a noticeably more spacious and versatile platform. Wide walk-throughs, generous seating and a practical cabin make her equally suited to entertaining, harbour cruising and relaxing at anchor. The enclosed cabin provides valuable protection from the elements while offering a private head compartment and additional storage.

Powered by twin Volvo Penta V8 300HP engines with Volvo Penta Joystick Control, she delivers smooth performance, effortless manoeuvrability and the refined ride quality for which Chris-Craft is renowned. The engines and drives have been meticulously maintained, with risers and manifolds replaced in 2024 and a full service completed in June 2026.

During 2026, the vessel also underwent an extensive refresh including a hull strip, re-prime and antifoul, partial respray, replacement electric anchor windlass, Fusion sound system upgrade, refurbishment of the mahogany steering wheel and servicing of both the cockpit refrigerator and head compartment.
