Description

1987 Bertram 35 Flybridge - Major Mechanical Spend | Fully Equipped

Well-known for its offshore capability, this 1987 Bertram 35 Flybridge presents as a mechanically sorted, well-equipped example with the expensive work already completed.

Powered by twin Volvo TAMD60 shaft-drive diesels (approx. 3022 hrs port / 3032 hrs starboard) and supported by a professionally rebuilt generator (688 hrs), the vessel has benefited from over \$77,000 in documented mechanical, generator and running-gear works between 2023 and 2025.

Recent sea trials recorded 23.7 knots (3600rpm) with engines running cleanly and at correct operating temperatures.

The interior is in great condition, while the exterior presents honestly and is priced accordingly -- making this an excellent opportunity for buyers seeking a turn-key Bertram without inheriting deferred maintenance.

Key Highlights

- 2 x Volvo TAMD60 shaft-drive diesel engines
- Generator rebuilt (2023) - approx. 688 hrs
- Over \$77,000 in documented servicing & upgrades
- Recently serviced, antifouled & Propspeed applied
- Strong sea trial performance - 23.7kts WOT
- Mechanically sound and ready to use
