Description

The MAXUM 2900SE is without doubt one of the best designed, luxury sports cruisers I have encountered, from the sporty high sided exterior to the smart spacious cockpit/entertaining area, this boat has it all!

This first thing you notice climbing aboard is the quality and smart attention to functionality and detail, at first I thought something is missing... It was. The back of the cockpit folds completely flat converting into a large, comfortable day bed, if I thought that was smart I was even more impressed with modular rotating double helm chair which is matched again on the Port passenger side (this is shown in the video).

Stepping behind the controls it's more like stepping into an aircraft than a boat, everything and more is right there at your fingertips including the "AXIS" joystick controller which makes docking the boat on those windier days... Excuse the pun, a breeze! This "AXIS" unit has also been updated with the latest firmware etc.

Below decks you are slapped in the face with warm luxurious surroundings including an extra large double berth aft. Don't worry about those hot, muggy nights... The MAXUM 2900 has ducted airconditioning powered by a 6.5 kva Kohler genset, plus the blue underwater lights really give the boat an air of class.

"Star Gazin" is powered by two, fully rebuilt 300hp engines with a dash mounted monitoring system giving you all the specs including fuel flow and engine PSI, risers and manifolds are 2-3 years old.

If your looking for a sports cruiser that is definitely on a different level... This is the boat!
